

Carl De Keyzer is a dedicated Magnum photographer. This dedication is clear to see in his new book 'Trinity'. The first part of the trilogy deals with 'power' in general, depicting the theme during times of war and in the European Parliament and Capital Hill.

De Keyzer worked at least 10 years on the first volume. It is not yet known when parts two and three will be available but one thing is for sure, these books will be gems. Keep your eyes open!

Trinity
