ABOUT THE EXHIBITION

This exhibition features 60 photographs of scenes from two Communist nations, North Korea and Cuba, by Belgian photographer Carl De Keyzer. *States of Mind* is the first time these photographs will be shown together, and is the result of De Keyzer's extensive stay in each country, including more than 40 nights in North Korea, spent visiting and documenting each province in the country. De Keyzer is a globally renowned photographer and member of Magnum Photos, an international photographic collective, and the recipient of 17 international awards. The photographs in this exhibition powerfully capture both the struggle and leisure of everyday Cubans and North Koreans in uncommon scenes.
